2012 Fish Sale

Price List

Largemouth Bass 2-3" 85¢
Each
Native to Ohio, largemouth bass prefer ponds, lakes and slow, sluggish streams. Adult bass eat crayfish, frogs, large insects, and other fish. Average size weighs from 1 to 2 pounds.

Bluegill 2-4" 70¢
Each
They are found throughout the state in nearly every stream and body of water. Bluegill reach 7 to 10 inches, but if they become overcrowded, will remain less than 5 inches in length. Best fish for forage because of their high reproduction numbers.

Channel Catfish 4-5" 75¢
Each
Found in most large streams, lakes and many farm ponds, this Ohio native can tolerate a wide range of conditions, but prefers areas of deep water, and a low to moderate current. The average size catfish is 12 to 14 inches in length.

Don't Forget Your Bucket of Pond Water!

Redear Shellcracker 2-4" 85¢
Each
Redear are not native to Ohio, but have been stocked in state waters for many years. They prefer a diet of snails and can reach nine to eleven inches in length.

Hybrid Bluegill 2-4" 85¢
Each
A cross of a male bluegill and female green sunfish, giving it the length of bluegill and thickness and aggressiveness of sunfish. Feeds on insects and small fish. If food is there, they reach the size of ten to eleven inches and can weigh up to 1 to 1 1/2 lb.

Fathead Minnow 1-2" .05¢
Each
Minnows are a feeder fish that tolerate a wide range of water conditions, making them suitable for farm ponds. Recommended in new ponds to help boost growth of game fish until bluegill begin to spawn.

White Amur 8-12" \$13.00
Each
Also known as grass carp, they eat weeds and plants and grow very rapidly. White Amur often attain 4 feet in length and weigh 70-90 pounds as adults. Amur used for weed control are sterile, triploid fish that eat up to 3 times their own body weight.

Stocking recommendations for
a new one acre pond.

These two make your balance:
100 Largemouth Bass
200 Bluegill

These add variety to the menu:
100 Channel Catfish
100 Redear Shellcracker
100 Hybrid Bluegill
1,000 Flathead Minnows
* 10 White Amur

Note: If the pond you are stocking is smaller than one acre, multiply the surface area of the pond by the rate in the chart above.

For Example: 0.65 Acre Pond
 0.65×1000 (Minnows) = 650

*Suggested rate for ponds with moderate pond weed problem. New ponds should not be stocked unless pond weeds exist (moderate=50% infestation).

2012 Fish Sale

Muskingum Soil and Water Conservation District

Additional order forms and information
can be found on our website.

Order Deadline:

Wednesday, April 11th, 2012

The fish must be picked up on:

Friday, April 13th, 2012

Pick-Up Hours: 1:30 pm - 3:00 pm
MSWCD parking lot

You must bring:

1. Container: (5-gallon bucket or 10-20 gallon trashcan)
2. Plastic liner in container.
3. Liner half full of pond water.

The container must be lined in order to
keep the oxygen in the water.

Payment must be made at the time of ordering. Clip the order form in this flyer and stop by our office or just mail it along with your check to:
