Jessica Stonecypher with her father, Todd Sands.

2023 OHIO TEACHER OF THE YEAR

JESSICA STONECYPHER

Congratulations!

The Ohio Federation of Soil and Water Conservation Districts (OFSWCD) held their Annual Partnership Meeting February 21-22, 2023 at the Columbus Downtown Renaissance. This event is a gathering of Soil and Water Districts across the state. This year was a special year for Muskingum Soil and Water. Our local Teacher of the Year, Jessica Stonecypher, was chosen for the 2023 OFSWCD Teacher of the Year.

WELCOME TO THE MSWCD TEAM BETSY!

I was born in Zanesville and have lived in my current home in the city for twenty years! I taught English for ten years before taking some time off to stay at home with my two children. During that time, I volunteered for various causes throughout Zanesville and served on the Zanesville Farmers Market Board for three years. I have always been happiest in nature and have a strong desire to serve my community. I enjoy reading, gardening, hiking, mountain biking, snow skiing, and kayaking in my free time. I am thrilled to have accepted the Urban Agriculture/Education Specialist position here at Muskingum Soil and Water Conservation District where I get to help fight food insecurity in Muskingum County and teach people how to grow and prepare healthy foods (another passion of mine)! I am equally thrilled to be back in the classroom, educating students about conservation and exposing them to possible careers in the industry! At Muskingum Soil and Water Conservation District, I have found an opportunity to employ my passions while helping others.

Betsy Rosser
Urban Agriculture/
Education Specialist

MUSKINGUM SWCD IS HIRING!

The Muskingum Soil and Water Conservation District is addressing food insecurity by teaching people how to grow food, while at the same time supplying fresh, locally grown produce to our county's food banks/pantries and to those who participate at the gardens. The theme of Urban Greens is "Growing with Purpose", and we believe that providing ways to grow healthy food is part of our purpose.

Our urban agriculture program, Urban Greens, currently manages five community gardens, each with a slightly different focus and purpose. We are set to expand by adding two new gardens in 2023. To assist with the Urban Greens program, we are fortunate to be able to offer one AmeriCorps VISTA Member position and one Summer Associate position through ShareCorps.

To learn more about these two positions, visit our website at <https://www.muskingumswcd.org/About-Us/Join-Our-Team/>.

Interested applicants must use this link to apply by May 5, 2023: <https://my.americorps.gov/mp/listing/viewListing.do?fromSearch=true&id=116863>

Urban Greens is Growing!

Urban Greens continues to expand in the 2023 season! Our sites include Restoration Park, Brighton Grows, Zanesville Community High School, Maple-Harding Community Garden, Marshall Greens, and High Hill Presbyterian Church. We have partnered with the South Zanesville Food Pantry to grow food to the specific wants and needs of those who utilize this pantry. We are also excited to begin plans for a Youth Garden! Educational programming throughout the spring and summer includes how to prepare the produce available and how to start personal gardens. We are currently looking for volunteers to assist with our many gardens this spring and summer! If you are interested, please create an account on voly.org where we will be posting opportunities to get involved!

Upcoming Events 2023

All Events Are Free!

NOW	Restoration Park Registration is open NOW for anyone interested in having a raised bed. Everyone interested in having a bed must fill out the registration form that is available on our website or in the office. A new registration for 2023 must be filled out by those who have reserved beds in the past.
March 29 5:30—6:30	Meet and Greet Event at James D. Singer Activity Center—for residents in Coopermill Manor and around the Brighton Grows Community Garden to share their ideas for the site with Urban Greens Representatives. Central State University “Beginning Farmer Training Series” information will be available.
April 4 6:00 PM	Let’s Get Started with the Spring Growing Series at James D. Singer Activity Center. Topics will include Crop Planning, and Record Keeping. A Central State University Program.
April 6 10:00 AM—12:00 PM	Meet and Greet Event at James D. Singer Activity Center—for residents in Coopermill Manor and around the Brighton Grows Community Garden to share their ideas for the site with Urban Greens Representatives. <p>BLUEGILL 2-4"</p> <p>THEY ARE FOUND THROUGHOUT THE STATE IN NEARLY EVERY STREAM AND BODY OF WATER. BLUEGILL REACH 7 TO 10 INCHES, BUT IF THEY BECOME OVERCROWDED, WILL REMAIN LESS THEN 5 INCHES IN LENGTH. BEST FISH FOR FORAGE BECAUSE OF THEIR HIGH REPRODUCTION NUMBERS.</p>	<p>\$1.12 EACH</p>	<p>JAPANESE KOI 6-8"</p> <p>JAPANESE KOI LOVE TO EAT DUCKWEED SO IF YOU REDUCE THE AMOUNT OF FOOD YOU GIVE THEM IT WILL ENCOURAGE THEM TO EAT THE DUCKWEED.</p>	<p>\$12.12 EACH</p>
<p>CHANNEL CATFISH 4-5"</p> <p>FOUND IN MOST LARGE STREAMS, LAKES AND MANY FARM PONDS, THIS OHIO NATIVE CAN TOLERATE A WIDE RANGE OF CONDITIONS, BUT PREFERS AREAS OF DEEP WATER, AND A LOW TO MODERATE CURRENT. THE AVERAGE SIZE CATFISH IS 12 TO 14 INCHES IN LENGTH.</p>	<p>\$1.07 EACH</p>	<p>LARGEMOUTH BASS 2-3"</p> <p>NATIVE TO OHIO, LARGEMOUTH BASS PREFER PONDS, LAKES AND SLOW, SLUGGISH STREAMS. ADULT BASS EAT CRAYFISH, FROGS, LARGE INSECTS AND OTHER FISH. AVERAGE SIZE WEIGHS FROM 1 TO 2 POUNDS.</p>	<p>\$1.21 EACH</p>
<p>FATHEAD MINNOWS 1-2"</p> <p>MINNOWS ARE A FEEDER FISH THAT TOLERATE A WIDE RANGE OF WATER CONDITIONS, MAKING THEM SUITABLE FOR FARM PONDS. RECOMMENDED IN NEW PONDS TO HELP BOOST GROWTH OF GAME FISH UNTIL BLUEGILL BEGIN TO SPAWN.</p>	<p>\$8.39/ 100</p>	<p>REDEAR SHELLCRACKER 2-4"</p> <p>REDEAR ARE NOT NATIVE TO OHIO, BUT HAVE BEEN STOCKED IN STATE WATERS FOR MANY YEARS. THEY PREFER A DIET OF SNAILS AND CAN REACH 9 TO 11 INCHES IN LENGTH.</p>	<p>\$1.12 EACH</p>
<p>HYBRID BLUEGILL 2-4"</p> <p>A CROSS OF A MALE BLUEGILL AND FEMALE GREEN SUNFISH, GIVING IT THE LENGTH OF BLUEGILL AND THICKNESS AND AGGRESSIVENESS OF SUNFISH. IF THE FOOD IS THERE, THEY REACH THE SIZE OF 10 TO 11 INCHES AND CAN WEIGH UP TO 1 TO 1.5 POUNDS.</p>	<p>\$1.12 EACH</p>	<p>PERCH 2-3"</p> <p>NATIVE TO OHIO, PERCH ARE FOUND IN LAKES, PONDS AND SLOW MOVING RIVERS. YELLOW PERCH NORMALLY RANGE FROM 6 TO 12 INCHES IN LENGTH AND WEIGH FROM 1/4 TO 1 POUND.</p>	<p>\$1.21 EACH</p>
<p>POND MANAGEMENT BOOK</p> <p>THIS BOOK IS FOR THE SMALL POND OR BIG LAKE OWNER TO USE AS A GUIDE TO STOCK AND PROPERLY MANAGE THEIR PONDS AND/OR LAKES.</p>	<p>\$18.65 EACH</p>	<p>WHITE AMUR 8-10"</p> <p>ALSO KNOWN AS GRASS CARP, THEY EAT WEEDS AND PLANTS AND GROW VERY RAPIDLY. WHITE AMUR OFTEN ATTAIN 4 FEET IN LENGTH AND WEIGH 70-90 POUNDS AS ADULTS. AMUR USED FOR WEED CONTROL ARE STERILE, TRIPLOID FISH THAT EAT UP TO THREE TIMES THEIR OWN BODY WEIGHT.</p>	<p>\$14.92 EACH</p>
		<p>NATURE'S POND CONDITIONER</p> <p>NATURE'S POND CONDITIONER BY KOENDERS IS A TWO IN ONE BOTTLE PRODUCT. YOU CAN PREVENT THE BLACK MUCK FROM CAUSING HIGH FERTILITY RATES AND GROWING VEGETATION, AND PREVENT FISH KILLS WHILE KEEPING YOUR POND HEALTHY. MORE INFORMATION AT HTTP://FENDERSFISHHATCHERY.COM/</p>	<p>\$88.58 GAL</p>

**STOCKING RECOMMENDATIONS FOR A
NEW ONE ACRE POND**

THESE TWO MAKE YOUR BALANCE:

- 100 LARGEMOUTH BASS
- 200 BLUEGILL

THESE ADD VARIETY TO THE MENU:

- 100 CHANNEL CATFISH
- 100 REDEAR SHELLCRACKER
- 100 HYBRID BLUEGILL
- 1000 FLATHEAD MINNOWS
- *10 WHITE AMUR

NOTE: IF THE POND YOU ARE STOCKING IS SMALLER THAN ONE ACRE, MULTIPLY THE SURFACE AREA OF THE POND BY THE RATE IN THE CHART TO THE LEFT.

FOR EXAMPLE: 0.65 ACRE POND
0.65 X 1000 (MINNOWS) = 650 MINNOWS

*SUGGESTED RATE FOR ONE ACRE POND WITH MODERATE POND WEED PROBLEM. NEW PONDS SHOULD NOT BE STOCKED UNLESS POND WEEDS EXIST (MODERATE = 50% INFESTATION).

2023 BIG TREE NOMINATION CONTEST

For a number of years now, the MSWCD has sponsored a Big Tree Contest in Muskingum County. The purpose of the contest, in addition to locating, measuring and documenting our county's big trees, is to provide an opportunity to remind us of the importance of trees and their role in our quality of life.

Trees nominated for this contest may be on your own property, or on other privately owned or public land in Muskingum County. Trees are scored using a format utilized by the Ohio Department of Natural Resources-Division of Forestry in determining Ohio's big trees, many of which remain National Big Tree Champions. The tree's height, average crown spread, and Diameter at Breast Height (DBH) are factored in this measurement, earning specific points or values.

When you nominate a tree, we ask that you approximate these dimensions. SWCD staff will measure each nominated tree for points. Also, it is very important to be specific as to the location of the nominated tree. It is equally important that the nominator or owner be available for the measurement by the staff during the field visit.

An award will be presented to the owner of the largest tree in Muskingum County, regardless of species. A custom made plaque and recognition in the District Newsletter will be awarded to the owners of the "Big Tree 2023".

Last year, a White Oak owned by Stovertown Lutheran Church, scored 270 points. This points total was calculated by adding the circumference in inches (160 inches or 4.24 feet in diameter), the height (85 feet) and the crown spread average times .25 (100 ft x .25).

Each tree entered is in the contest for two years. Previous big tree winners can enter again, but a different tree must be submitted for consideration. If you would like to submit a tree for consideration, complete the form below and return by May 26, 2023.

2023 Berry Plant Sale

In an on-going effort to promote the establishment of pollinator habitat, the Muskingum Soil and Water Conservation District (MSWCD) is again offering various berry plants for sale. Proceeds from the sale benefit the college internship scholarship program.

The plants for sale have been selected for their attraction to pollinators, so please be advised that bees will be attracted to these same plants. All of the plants are deer resistant, meaning that they are not the first plants the deer will clean off your property. The berries are all hardy, easy to grow canes that come from nurseries in Michigan and Massachusetts, so they will be winter-hardy to our area. Berries bloom very early, offering pollinators food sources before many other plants bloom.

Orders are being taken for a limited number of plants on a first come-first serve basis. Orders will be taken until April 28 or until the plants are sold out. Order forms are available at the office, in this newsletter, or on-line at www.muskingumswcd.org. Payment must be submitted with the order. Orders may be placed at the MSWCD office or mailed to 225 Underwood Street, Suite 100, Zanesville, Ohio 43701. Order can also be placed on-line. There is a 4% service fee for credit card orders.

Projected delivery to our office is mid-May. We will notify you by postcard or email when the plants can be picked up. You must pick up your plants on the specified date because we do not have a place to keep the plants. The plants are small (2-4" pots). There are no refunds or exchanges and we reserve the right to make substitutions. All sales are final. Berries are sold in bundles of three of one type of plant.

Blackberries, Chester (\$20.51 for 3 plants) A trailing, thornless Blackberry. The fruit is medium in size and quality is firm. Do not plant near black raspberries.

Red Raspberries, Caroline (\$13.99 for 3 plants) Large size fruit that are firm and said to be the tastiest of the Raspberry cultivars. Fruit matures in August. Do not plant near black raspberries.

Blueberries, Sweetheart (\$16.78 for 3 plants) This plant will grow 5-6 feet tall. Fruit is medium to med.-large and bears very early in the season. Bears fruit in two to three years.

Blueberries, Draper (\$16.78 for 3 plants)

This plant will grow 5 feet tall. Fruit ripen mid-late in season. Fruit size is medium size. Bears fruit in two to three years.

Elderberries - \$12.12 for 3 plants (one Bob Gordon, one Ranch, and one Adams)

Research shows cross-pollination is required, so having more than one cultivator will result in better pollination.

- **Bob Gordon** These plants are productive with a sweeter and larger berry than other varieties. They appear to have some resistance to the Japanese beetle.
- **Ranch**- These plants are shorter and easily harvested. They grow in most soil types.
- **Adams**- The Adams elderberry is very large and ripens late in the season.

Order deadline is April 28, 2023 or until plants are sold-out.

Blackberries, Chester (3 plants)	_____	x \$20.51 =	_____

2023 HUGH HAMMOND BENNETT REGIONAL CONSERVATION PLANNER AWARD WINNER IN THE NORTH CENTRAL REGION

DEE WISEMAN

Dee Wiseman with John
Wilson, Ohio NRCS State
Conservationist

Dee Wiseman is the NRCS Soil Conservation Technician for Morgan and Muskingum Counties in the Zanesville Service Center. Dee is a lifelong farmer who grew up on her family farm in Cumberland, OH. She also actively farms with her husband, Russ, and her son, Austin, on their own farms in Morgan County.

She began her career in 1991 as a District Technician with the Morgan Soil and Water Conservation District. She continued in that position until the beginning of 2009 when she started working for the NRCS as a Soil Conservation Technician in Morgan and Muskingum Counties.

As a District Technician and a Soil Conservation Technician, Dee has over three decades of experience working with producers to assist them in designing and installing a wide variety of engineering practices for grazing, livestock and cropland operations. The work she does is very complex. It includes working with producers from the initial farm visit to assisting them with the implementation of various conservation program contracts. She designs everything from simple water systems to complex paddock systems for grazing operations to manure storage/handling systems for large livestock

operations. In addition to Dee's broad engineering knowledge and experience, she is also a Certified Conservation Planner and a Certified Comprehensive Nutrient Management Planner.

CONGRATULATIONS

Attention High School Students

Do you have an interest in the conservation, environmental or agriculture industries?

This program is designed to help high school students learn how they want to advance their conservation/environmental interests into a career. Students will be given the opportunity to build their skills in professionalism in the workplace. Upon completion, students will be awarded a scholarship.

Interested students must:

- ◇ Be starting sophomore or junior year of high school.
- ◇ Able to provide their own transportation to our office.
- ◇ Submit an application (available on our website), resume, cover letter, and at least two letters of recommendation (from non-relatives).

For more information, please contact Betsy Rosser at 740-454-2027.
